GAME: What Costs More?

Prepare: Bring to class six common items (two sets of three) and a record of the price that was paid for each (see example below). Gather photos from a magazine or sketch the images of a small airplane, a midsize car (label this image *100 cars*), and the Tabernacle (use cover of book). Examples:

box of spaghetti ($1.50)	box of cold cereal ($3.50)
8 AA batteries ($6.00)	book of stamps ($8.40)
can of coffee ($5.50)	music CD ($10)

(Additional sets can be added if desired.)

Directions: Place the first set of three items randomly in front of the class, and choose one student to be the first contestant. The student, with the help of his/her classmates, is to arrange the items in order from the least expensive to the most expensive. Then reveal the correct order. Call up a second contestant to arrange the second set, and a third to arrange the three images. The correct order of the images is as follows:

1. A new small airplane costs about $200,000
2. One hundred new cars cost about $2 million
3. The cost of the Tabernacle today would be well over $20 million. The gold alone weighed more than one ton! (See Exodus 38:24.)

Now ask the students where they would place themselves in this line of expensive items. Remind them that each of them is way more valuable than all these things combined! They are each worth the death of Jesus the Son of God (John 3:16)!

Lesson 2

THE HOLY PLACE

MATCHING: The Tabernacle and Jesus

Prepare: Duplicate the handout on page 4, making one copy for each student in your class.

Answer Key:

1. *Light / the lampstand*
2. *bread / the table of showbread*
3. *Lamb / animal sacrifices*
4. *priest / the high priest*
5. *blood / the veil*

WEAVING CRAFT: The Tabernacle Veil

Materials Needed: Blue, purple and red yarn; scissors; plastic combs and one 6" x 6" cardboard square for each student.

Directions: Each student is to weave a coaster-sized swatch of fabric, similar to what the Tabernacle veil might have looked like. (Steps 1 and 2 can be done before class if desired.)

1. Cut notches in the top and bottom of cardboard to make a loom. Each notch should be spaced about ¼" apart (about the thickness of a pencil).
2. Wrap yarn through each notch and all the way around the loom.
3. Cut 10" pieces of yarn and weave *over, under, over, under* across the loom, leaving a 2" overhang on each side.
4. Start the next piece going *under*, and weave *under, over, under, over*. (Alternate each piece.)
